

**First joint IAG GeoNor / IAG GeoNorth Meeting, 1-2 October 2020, Trondheim, Norway**

***First Circular (15 March 2020)***

Dear all,

It is our great pleasure to announce the

*First joint Meeting of the newly formed **National Norwegian Geomorphology Group (GeoNor)** and the newly formed **Nordic Network of National Geomorphology Groups from Denmark, Finland, Iceland, Norway and Sweden (GeoNorth)***

to be held **1-2 October 2020** in **Trondheim, Norway**.

**GeoNor** and **GeoNorth** were formally approved as **National Scientific Members** of the **International Association of Geomorphologists (IAG)** (<http://www.geomorph.org>) in September 2019.

The First joint IAG GeoNor / IAG GeoNorth Meeting, 1-2 October 2020, Trondheim, Norway is organized under the **auspices of the International Association of Geomorphologists (IAG)**.

Summary information on IAG GeoNor and IAG GeoNorth is found below, and detailed information on the purpose, organisation and key activities of IAG GeoNor and IAG GeoNorth is available through the website of the International Association of Geomorphologists (IAG) under <http://www.geomorph.org/national-scientific-members/>.

We kindly invite geomorphologists and other scientists with interest in geomorphology from the five Nordic countries (Denmark, Finland, Iceland, Norway, and Sweden) to participate in these new initiatives and in the first joint IAG GeoNor / IAG GeoNorth Meeting in Trondheim, 1-2 October 2020.

In addition, we kindly invite all international scientists from other countries who are carrying out geomorphological research in the Nordic countries to join these initiatives and to participate in our first joint IAG GeoNor/GeoNorth Meeting in October.

If you are interested to participate in the first joint IAG GeoNor / IAG GeoNorth Meeting please send an email confirming your interest and pre-registration, and including a working title for a scientific presentation (talk or poster presentation) at the meeting to

Achim A. Beylich ([achim.beylich@geofieldlab.com](mailto:achim.beylich@geofieldlab.com)) before **31 May 2020**.

We will then get back to you with detailed information on the meeting, binding registration and abstract submission shortly after 31 May 2020.

## **Meeting information**

First joint IAG GeoNor / IAG GeoNorth Meeting

*Location:* Trondheim, Norway

*Meeting dates:* 1-2 October 2020 (two full days)

*Registration fee* (to be paid after 31 May 2020 and including lunches, coffee/tea breaks, refreshments, workshop materials, PhD seminar/short course and short fieldtrip on 1-2 October 2020; further information will be sent to all pre-registered colleagues after 31 May 2020):

Ordinary: 2200 NOK

PhD students: 1700 NOK

*Abstract submission:*

After 31 May 2020 (further information will be sent to all pre-registered colleagues)

We look forward to welcoming you in Trondheim in October.

Please forward this information to colleagues and PhD students that might be interested to participate in IAG GeoNor / IAG GeoNorth activities.

With kind regards and on behalf of the GeoNor and GeoNorth national representatives,

Achim A. Beylich

Chair of IAG GeoNor and IAG GeoNorth

---

**IAG GeoNor** (<http://www.geomorph.org/national-scientific-members/>)

The National Norwegian IAG Geomorphology Group (IAG GeoNor, formally approved in September 2019) will increase the national and international visibility of Norwegian geomorphology and will stimulate the active communication, collaboration and exchange between senior and early career scientists from geomorphology and from other bio-geophysical disciplines working at different universities, research institutes and companies in Norway. In addition, GeoNor shall serve as a catalyst for the development of international scientific contacts and collaborations for Norwegian senior and early career scientists. GeoNor shall significantly reach out internationally by being closely linked with the four other Nordic geomorphology groups/communities from Sweden, Finland, Denmark and Iceland, and by showing appreciation for the geomorphological research achievements and the published scientific work of international colleagues that have carried out relevant geomorphological research in Norway. As an active National Scientific Member of the International Association of Geomorphologists (IAG), GeoNor is part of a global network of senior and young geomorphology groups and communities.

**IAG GeoNorth (<http://www.geomorph.org/national-scientific-members/>)**

The new Nordic IAG Network of National Geomorphology Groups/Communities from Denmark, Finland, Iceland, Norway and Sweden (IAG GeoNorth, formally approved in September 2019) is stimulating the active communication, collaboration and exchange between the national geomorphology groups/communities of Denmark, Finland, Iceland, Norway and Sweden in Northern Europe. By serving as an international IAG umbrella network, GeoNorth shall foster the initiation and/or further development of national geomorphology groups in the five Nordic countries. Being a formal and official organ of the International Association of Geomorphologists (IAG) (IAG National Scientific Member GeoNorth, Regional Group), GeoNorth is connected with the global IAG network of national senior and young geomorphology groups and communities.
