Landscapes and Landforms of Norway

- Highlights selected landscapes and landforms in case studies written by leading scientific experts
- Highly illustrated book, presenting the geomorphology of mainland Norway
- Comprehensive introduction on the varied landscapes and landscape evolution in mainland Norway
- Discusses the status and value of geomorphological heritage and geoconservation in Norway

This book discusses the striking geomorphological landscapes of mainland Norway. As part of the Springer book series on World Geomorphological Landscapes, it outlines the nature and diversity of Norway's geomorphological landscapes and examines the geological background and the drivers of landscape evolution. It also features numerous case studies describing the most striking sites, and offers insights into the status and value of geoheritage and geoconservation in the country. Providing readers with an opportunity to explore the variety of Norwegian landscapes and landforms through informative texts richly illustrated with color maps and photos, the book will appeal to scientists, scholars and any readers interested in geology, physical geography, geomorphology, landscape tourism, geoheritage and environmental protection.
