Curriculum Vitae

Contact details:

Dr. Katja Laute

Nationality: German
Geomorphological Field Laboratory (GFL)
Strandvegen 484
7584 Selbustrand, Norway
katja.laute@geofieldlab.com
https://geofieldlab.com

Current profession:

03/2018	Research Scientist, Geomorphologist at GFL
09/2021 – 12/2022	Scientific Managing Editor, Geomorphology and Sedimentary Geology (Elsevier)

Author profile:
Google Scholar
Scopus author ID
ORCID

h-index: 15 (Google Scholar)
>25 peer reviewed scientific publications (articles and book chapters)
Co-editor of one Special Issue to the Journal Geomorphology (Elsevier)

Invited tasks:

2024	Panel member for the French National Research Agency (ANR)
12/2023	Editorial Board Member, Geografia Fisica & Dinamica Quaternaria (AIGEO/CNR)
06/2023	Editorial Board Member, Geomorphology (Elsevier)
09/2022	IAG Elected Executive Committee Member (Officer)
09/2020 – 09/2022	IAG Executive Committee Member (Special Portfolio Member)
09/2019 – 01/2023	Secretary GeoNor (IAG NSM Norway)
09/2019	National Scientific Representative GeoNorth (IAG NSM Nordic Group Member)
11/2017	Steering Committee Member for the IAG Working group DENUCHANGE

Research regions:
Norway
Spain
France
Western Canada
Germany
Iceland

Research expertise and interests in Geomorphology:

Process geomorphology; Mass movements; Hillslope processes; Hillslope-channel coupling; Sediment connectivity; Fluvial geomorphology; Sedimentary source-to-sink fluxes; Glacial and periglacial geomorphology; Coastal cliff erosion; Anthropogenic impacts on earth surface systems; Effects of climate change; Magnitude, frequency and extreme events in geomorphology; Holocene to contemporary landscape evolution; Field/laboratory methods and techniques in geomorphology

Ongoing national and international scientific projects and networks

2020	WoodChannelInteract, Norway (GFL)
2020	DenuBoreal – Selbusjøen, Norway (GFL)
2019	GeoNor, Norway (IAG)
2019	GeoNorth, Norway (IAG)
2018	DenuMed – Costa Blanca, Spain (GFL)
2018	ChannelFluCut – Austfirðir, Iceland (GFL)
2017	DENUCHANGE, worldwide (IAG)
2014	SediSource – Nordfjord, Norway (GFL)
2012	DenuMountChange – Dovrefjell/Oppdal, Norway (GFL)

Second occupation:

08/2019	Professional nature- and detail photography (https://geofieldlab.com/gallery)
Latest award	*Honorable Mention* at the Monochrome Photography Awards 2022

Qualifications:

Doctorate:

11/2013	Doctoral thesis: Laute, K., 2013. Denudational processes and relief development in mountain valleys in western Norway: A Holocene to contemporary time perspective. Doctoral theses at NTNU, 2013:290, 218 pp. Scientific mentor: Dr. A.A. Beylich
01/2009 – 11/2013	Doctoral candidate (dr. philos.) at the Geological Survey of Norway (NGU), Trondheim and at the Norwegian University of Science and Technology (NTNU), Trondheim, Norway
01/2009 – 12/2012	Financial support through the Norwegian Research Council (NFR) funded SedyMONT-Norway project (Grant to Dr. A.A. Beylich) within the European Science Foundation (ESF) EUROCORES TOPO-EUROPE programme SedyMONT (Timescales of sediment dynamics, climate and topographic change in mountain landscapes)

Education:

10/2008	Diplom Geograph, Final Grade: 1.2 (with honour) Diploma thesis: Sub-recent erosion and sedimentation within a paraglacial valley system in western Norway (Erdalen, Nordfjord), Supervisors: Prof. K.-H. Schmidt, Dr. A.A. Beylich, Research scholarship (Grant to K. Laute) from the German Academic Exchange Service (DAAD)
01/2006 – 06/2006	Semester abroad at the University of British Columbia (UBC), Vancouver, Canada, Supervisor: Prof. M. Hassan
10/2002 – 10/2008	Study of Geography, Martin-Luther-University of Halle-Wittenberg, Institute of Geosciences, Department of Geography, Halle (Saale), Germany Minor subjects: Geology, Geobotany
06/2002	Abitur certificate (Final Grade: 1.7) Burg-Gymnasium Wettin, Germany

Professional work experience, internships, research stays

06/2016 – 12/2017	Post-doc position at LETG-Brest Géomer, Institut Universitaire Européen de la Mer (IUEM), Technopôle Brest-Iroise, France, project leaders: Dr. P. Letortu, Dr. N. Le Dantec
07/2015	Joined fieldwork regarding Schmidt-hammer dating of rockfalls in Jotunheimen, Norway, led by Prof. J. Matthews and Dr. S. Winkler
10/2014	Research stay at the Department of Soil and Water, Estación Experimental de Aula Dei (EEAD-CSIC), Zaragoza, Spain, invited talk and collaboration with Dr. A. Navas
05/2011	Research Assistant (responsible for terrestrial laser scanning in proglacial areas) during fieldwork campaign in Iceland led by Dr. A. Schomacker and Dr. I.Ö. Benediktsson,
10/2010 – 02/2011	Research stay at the Department of Geography, University of British Columbia (UBC), Vancouver, Canada, collaboration with Prof. M. Hassan
09/2009	Summer school on field-based physical geography in boreal and subarctic environments at Kevo Subarctic Research Station, University of Turku, Course leader Prof. J. Käyhkö

01/2009 – 12/2014	Project Assistant for the ESF-NFR SedyMONT-Norway project led by Dr. A.A. Beylich
08/2007 – 10/2007	Internship at the Geological Survey of Norway (NGU), Trondheim, Norway with three weeks fieldwork campaign in Erdalen, Nordfjord, western Norway, Supervisor Dr. A.A. Beylich
06/2007 – 07/2007	Fieldwork Assistant in the Research Station “Grube Messel”, Darmstadt/ Senckenberg, Forschungsinstitut und Naturmuseum, Frankfurt/Main, Germany, Sektionsleiterin Dr. S. Wedmann
02/2007 – 10/2008	Research Assistant within the working group Physical Geography led by Prof. K.-H. Schmidt, Institute for Geosciences, Department of Geography, Faculty of Natural Sciences III, Martin-Luther-University Halle-Wittenberg, Halle/Saale, Germany
09/2007	Workshop Assistant for the international workshop “Second I.A.G./A.I.G. SEDIBUD meeting” in Abisko, Sweden, led by Dr. A.A. Beylich
05/2006	Fieldwork campaign in the Rocky Mountain Foothills led by Dr. R. McCleary, Foothills Model Forest, Hinton/Alberta, Canada

Coordinated activities and invited tasks:

Referee for international journals:	Geomorphology, Science of the Total Environment, Hydrology, Earth Surface Dynamics, Geografiska Annaler A, Quaternary Research, International Journal of Disaster Risk Science, Environmental Management
2021 – 2024	Organizer of the IAG virtual Regional Webinar Northern Europe
11/2020 – ongoing	Editor of the quarterly IAG Newsletter (IAG *Highlights*)
2023	Co-organizer of the EGU session: Denudational hillslope and fluvial processes and associated source-to-sink fluxes under changing climate and increasing anthropogenic impacts”
2022	Co-organiser of session 18 “Hillslope processes and landforms” at the ICG2022, Coimbra, Portugal and of the EGU session: “Hillslope and fluvial processes and associated source-to-sink fluxes and sedimentary budgets under changing climate and anthropogenic impacts”
2020 – 2021	Co-organiser of the EGU session: “Denudation, land cover dynamics and sedimentary source-to-sink fluxes under changing climate and anthropogenic impacts” (2021) and “Pathways of water and sediment from source-to-sink under changing climate, anthropogenic impacts and other disturbances” (2020)
2015 – 2019	Organiser of the EGU session: “Hillslope geomorphology, denudational slope processes and slope response to global climate changes and other disturbances”
2010 – 2017	Co-organiser of the EGU session: “Sedimentary source-to-sink fluxes and sediment budgets”
09/2012	Co-organiser of the IAG SEDIBUD Summer School on “Quantitative analysis of geomorphologic processes: Field methods, experimental techniques and modelling” in Trondheim and Loen, Norway, led by Dr. A.A. Beylich
09/2010	Co-organiser of the ESF TOPO-EUROPE SedyMONT Summer School on “Detecting Landscape Change” in Loen, Norway, led by Dr. A.A. Beylich

Language skills:
German: native
English: excellent
French: good
Norwegian: good
Spanish: basic

Technical and Field instrumentation skills:

Field-based hillslope profile surveying, GPS- and handheld laser rangefinder measurements, familiar with terrestrial laser scanning (TLS) and geophysical subsurface mapping (GPR), handling of hydrometric and automatic weather stations, familiar with rock- and soil temperature sensors, installation of

seismometer, geophones and crackmeters, granulometric analyses, relative dating techniques (Schmidt-Hammer, dendrogeomorphology, lichenometry)

IT skills and Data processing:

ESRI ArcGIS, QGIS, ERDAS Imagine, PolyWorks, Surfer, RAMMS, MS Office package, Editorial Manager, Adobe Illustrator, Adobe Photoshop, Affinity Photo, Affinity Publisher, WordPress, DEM/GIS analyses, Orthophoto/Satellite image processing, TLS processing, Meteorological/hydrological data analyses

Selbustrand, 15.11.2024
